

OiL Chef Sweeps All Major Industry Awards in USA and Europe

OiL Chef Eco Friendly Technology Is Best in the Business

Montreal, Nov 27, 2019 ([Issuewire.com](http://www.Issuewire.com)) - OiL Chef wins the grand slam of major industry foodservice innovative equipment awards.

OiL Chef completed the triple win in Europe at the Restaurant & Takeaway Innovation Expo, held at the Excel in London, England on 19th November 2019.

Hot off the heels of having been awarded the Best Eco-Friendly Frying Solution in all of North America 2019, and featured in the **US Business News** <https://www.usbusiness-news.com/issues/q4-2019/> and Technology Elite, Founder and CEO **Sean Farry** said "we are really humbled by these awards and are very appreciative to those industry advocates who have placed these high accolades on our **award-winning brand**. After winning the Kitchen Innovation Award in Orlando, at the Florida Restaurant and Hotel and Healthy Food Expo in September, we thought that a piece of silverware was a Godsend to be cherished as a one-off. Little did we know that opened up the World of possibilities and industry credibility for our great product"

OiL Chef is an industry game-changer. This small sophisticated device is an **accessory for a deep fryer** which typically doubles the life of fryer oil, reduces the oil content of food, energy and time required for frying, prevents food flavor transfer between foods fried in same oil and reduces the frying odours in the kitchen and helps fried food to stay crispier for longer, which is great for food deliveries. The **3-second installation** and **3-year warranty** attract many professional kitchen owners especially when they can **save around 50%** per year on fryer oil purchases and fryer oil waste.

Global Recognition for this must-have deep fryer accessory certainly smacks of huge credibility, **OiL Chef** keeps it simple. [Watch 3-second installation](#)

The **OiL Chef Brand** continues to strengthen and if you can answer yes to any questions raised in this [48-second video](#) then you need **OiL Chef**.

With over 32,000 followers on twitter using the twitter handle [@oilchefdotcom](#) [twitter.com/oilchefdotcom](#) and having pioneered the Global hashtag **#EcoFriendlyChef** **OiL Chef** is growing in credibility every day, one Country at a time.
