

Second Token Burning Event Successfully Completed

Grand Cayman, Nov 12, 2019 (Issuewire.com) - Levolution is proud to announce that the second token burning event was completed successfully. Levolution will continue to grant full transparency of the completion of each event, providing the corresponding transaction hash following the event.

The following link shows the transaction hash that confirms the LEVL Token burning that has taken place on 11/12/2019.

<https://etherscan.io>

As stated before, Levolution will be periodically burning approximately 50 million tokens every two weeks, as part of our commitment to reach 190 million LEVL tokens burned. The next token burning event will take place on November 26, 2019.

The token burn event schedule is as follows:

Event 1 – 50M LEVL Burned, Tuesday, October 29th, 2019 - COMPLETED

Event 2 – 50M LEVL Burned, Tuesday, November 12th, 2019 - COMPLETED

Event 3 – 50M LEVL Burned, Tuesday, November 26th, 2019 - UPCOMING

Event 4 – 40M LEVL Burned, Tuesday, December 10th, 2019

If you aren't a LEVL token holder, take advantage of this opportunity before the next burn!
