

New Fantasy Novel Debunks Stereotyping Werewolves

A werewolf's struggles as he tries to search for his place in the modern day milieu dominated by humans

CUB TO WOLF

Bonus Stories Lone Wolf and Dark Wolf
Mason MacVicar

Pittsburg, Dec 12, 2019 (IssueWire.com) - Mason MacVicar's [*Cub to Wolf: Bonus Stories Lone Wolf and Dark Wolf*](#) is a fantasy novel featuring a group of good werewolves protecting humans. The story revolves around Connor who grew up in a way, unlike any other child. Connor has to constantly move from place to place, never settling, along with his father who's the leader of the biker gang called the Central Plains Wolf Pack. What sets Connor's childhood out of normalcy is his inevitable transformation into one of the most feared mythical creatures that all of mankind has ever known — a werewolf.

MacVicar fostered a profound love for wolves, and this couldn't be made any more perfect when his Celtic astrological sign is serendipitously the wolf. He cultivates an intense admiration of how the wolves work together as a family and how they fight in order to maintain hierarchy and leadership among the pack. Because of his undeniable passion towards anything related to wolves, he is determined to shed new light to the werewolves' reputation as killers driven purely by animalistic instincts. This book aims to deliver a message that werewolves are more than the preconceived notions set by media outlets.

CUB TO WOLF

Bonus Stories Lone Wolf and Dark Wolf

"When you hear the word Werewolf the images of a monstrous man eating wolf that curses with a bite comes to mind. Well they're included.

This is a story of a different Werewolf.
A born Werewolf by the name of Connor.

Who like his father's biker pack have control over themselves and no longer curse. He goes from a young Werewolf loosing his fathers pack to an Alpha in training for his own. Meeting friends far and near he also embarks on a trip to know the origin of his kind."

"A little about the author. Well I am an actual wolf. No seriously my Celtic astrological sign is the wolf. My birth date is November 16th, so if you look it up you will see.

I always had a love for wolves. The way they work together as a family, communication, hunting and raising of generation after generation of cubs. The strong hierarchy and leadership of the alpha that is fought for and fought to maintain.

When I read books or watch movies of Werewolves they are portrayed mostly as mindless killing machines. Well I hope to change that with my stories by bringing a natural and mystical view of the werewolf to a modern day scenario."
