

Perfectus Pet Food LLC proudly introduces two new super premium dog food lines

Perfectus Rich Red Meat & Ancient Grain Recipe and Perfectus Plentiful Poultry & Ancient Grain Recipe.

New York City, Dec 12, 2019 (Issuewire.com) - Perfectus Pet food has been intently listening to pet parent's desires for a better premium dry dog food, and we believe there is a better way to do business by carefully and responsibly designing food that dogs like with the peace of mind that their human companions have been longing for.

Pet owners have asked for a premium clean, safe, high quality, great-tasting dog food; kept simple and back to the basics, with something better than any of the Grain Free or Regular Grain formulas on the market can ever offer – NO peas, legumes or legume seeds; NO pea proteins, pea flour, pea fiber or pea starch; NO wheat or wheat glutens; NO corn, corn meals or corn glutens; NO soy; NO potatoes; and NO dairy – so we are proud to present two new amazing recipes that provide a wholesome and complete balanced nutritional diet for all life stages without all the extras - an unpretentious limited ingredient diet and phenomenally flavored food your Dog will love.

Welcome to Perfectus Pet Food's Ancient Grain Recipes; a choice selection of either real deboned beef or real deboned chicken, masterfully crafted with the ancient grain sorghum in an all-natural ingredient-based formula, available in convenient resealable 8 Lb and 25 Lb packages. Try our new recipes and let your dog experience the taste difference that separates us from the rest. Come and see us at www.perfectuspetfood.com
