

Lines by Leon: The debut book by Leon Stevens

Winnipeg, Feb 2, 2020 (IssueWire.com) - Published in January 2020, *Lines by Leon: Poems, Prose, and Pictures* is the debut book from author Leon Stevens. It is an eclectic mix of poetry, prose, and short stories that address the subjects of loss, struggle, human behavior, and the environment.

Lines by Leon addresses the subjects of loss, struggle, and reflection. Inside these thoughtful contemplations are original observations about ego, behavior, human relations, places, and the environment. Many of the pieces feature a lighthearted and even humorous take on a subject, and the author invites his readers to laugh, think, cry, and meditate on a wide variety of thoughts. Scattered throughout the book are sketches of various subjects, many that relate to the poems and stories they illustrate; others speak for themselves.

This book has words to encourage you, to make you laugh, and to invite you to reflect. With each chapter, a lens opens, revealing a different observation. -Leon Stevens
