

Mobile Sports Game Boxing Star's 'Fight Club Battle' Beta Update

Fight to become the strongest Fight Club in the game!

Seoul, Jan 17, 2020 (Issuewire.com) - Publisher and mobile game developer FourThirtyThree Inc. (4:33) today unveiled the Beta Update of *Boxing Star's* highly anticipated 'Fight Club Battle' mode. Fight Clubs (Clans) will now have the chance to face off against each other in Fight Club Battles and fight to become the strongest Fight Club in the game!

During the Beta period, Fight Club Leaders can simply click 'Apply' to enroll their Fight Club in the 'Fight Club Battle' Beta. Once the 'Fight Club Battle' begins, players will have a day to prepare for the fight. During the Prep Time, players can upgrade their Fight Club Sponsor Levels with Fight Club members to gain extra game abilities that can be used only in Fight Club Battle. Then, they will have one day to test their mettle against other Fight Club members. Once the fight begins, the Fight Club that achieves a higher score will win the battle. Rewards for both single battle gameplay and performance throughout the entire season will be up for grabs to all Fight Clubs that participate.

In addition to allowing the players to try out the new mode, 'Fight Club Battle' Beta will also offer them a chance to be involved in its development process. Players will be able to express their opinions and suggestions about the mode, which the developers are planning to take into consideration during their preparations for the mode's grand launch.

Boxing Star's Lunar New Year's Mission Event was also announced today, with heaps of in-game items revealed as rewards. Those who complete missions such as Gym Training and other in-game missions can get their hands on these great items. On top of that, players can continue to dance to "Square Up", the winning song in *Boxing Star's* Hip-Hop Soundtrack Contest, which can be heard in the Fight Club Battle Lounge.

Developed by 4:33, *Boxing Star* features an immersive story and interactive gameplay in which players fight through multiple tournaments. The gameplay is optimized for the mobile experience and offers simple touch, tap, and swipe controls.
