Praxis awarded 50 winners at 5 different levels for their continuing commitment to excellence, developing best practices and innovative strategies for the growth of the business and services sector with vision and inspiration.

ProGen weight management company a world-renowned brand launched in India last year adhered best weight management company in Karnataka. Speaking about the award Mr.Joan Fondevilla Llevot, CEO and Founder, ProGen said *“We are very pleased to receive this award. Within a short period of time, ProGen has created an impact in many people’s lives transforming them and helping them lead a healthy life. At ProGen we follow a weight loss program which is unlike others. Its scientifically-based program based on a multidisciplinary approach carried out under the supervision of a team of health professionals, including doctors, dieticians, mitochondrial activation trainers, and coaching professionals.”*

The Founder-Director of the company, Mrs. Swagatika Patel Singh was also present at the function and said, *“Each winner has exemplified excellence and typify the very best of business practices and ethics.”* The National Quality Excellence Awards, 2019 are a small token of appreciation from Praxis Media to all these inspirational individuals, entrepreneurs and organizations. These recognitions will further strengthen their ability to steer their objective through turbulent times, apply the best of the professional modules to manage and keep their missions afloat.

About ProGen Weight Management:

The ProGen Method is a European medical treatment for fast weight loss, without hunger and feeling energetic. ProGen Method is divided into 2 stages:

The first stage: “Fast Weight Loss Stage” is based on a Very Low-Calorie Ketogenic Diet that allows a ratio of 10 kg weight loss per month. The duration of this stage is as long as you need until you reach your target weight.

During the second stage, “Genetic Metabolic Adaptation & Lifestyle Stage”, which is the most crucial stage, all food types are slowly reintroduced to the diet in accordance with the genetic test that every patient does. New dietary habits are developed, and this becomes the platform for maintaining the determined target weight.

Thanks to the combination of ProGen products you will maintain your muscle mass while you lose weight rapidly, and thanks to the personalized diet according to your genetic results and the new habits acquired you will keep it off forever.

The Progen Method offers a wide range of protein products produced according to the highest industry standards and quality. They are available for both vegetarians and non-vegetarians. The products ensure adequate intake of protein, vitamins, and minerals. The program includes products such as chocolate bars, soups, vanilla drinks, chips, etc.
