

Sierra Miles Drives Rapid Growth with New Office

Revenue increased nearly 50 percent last year for Reno IT consultants - Clients include leading local medical practices and law firms

Reno, Jan 26, 2020 (IssueWire.com) - It started in early 2015 at a kitchen table with a laptop, a cell phone and lots of coffee.

Five years later, [Sierra Miles Group, LLC](http://SierraMilesGroup.com) of Reno, a managed services provider of information technology, employs six people and projects revenue exceeding \$1 million for the fiscal year 2020.

To accommodate this significant growth, fuel new growth and better serve its clients, the firm has expanded into larger Reno offices. These new offices “will provide a solid anchor for our thriving business and allow us to take on new challenges,” said Brandon App, a principal in the business.

Sierra Miles Group offers managed services like anti-virus protection, Microsoft Office Suite with email, PCI compliance for credit card data, HIPAA compliance for healthcare information, network design and maintenance, data back-up and Windows patch management.

Sierra Miles Group specializes in working with small and medium-sized businesses. Its clients including local law firms, medical practices and financial services companies.

Tim Miles and Brandon App are principals of Sierra Miles Group. Contact the company at support@sierramiles.com or 775-420-4224.
