

Stephen A. Rosenberg, MD, an Obstetrician-Gynecologist with North Atlanta OBGYN

Get to know Obstetrician-Gynecologist Dr. Stephen A. Rosenberg, who serves patients in Georgia.

New York City, Feb 3, 2020 (Issuewire.com) - Dr. Rosenberg, a board-certified obstetrician-gynecologist, is the go-to expert for women: guiding them with skilled care and concern through pregnancy and giving birth, to helping them navigate the life-changing issues of menopause. He is the gold standard in women's healthcare, providing his patients with expertise coupled with kindness and

concern at North Atlanta OBGYN in Atlanta, Georgia.

“At North Atlanta OBGYN, our goal is to build a partnership with women to enhance their health and wellness in an environment that is friendly and respectful. Our commitment is to bring our patients quality healthcare, providing compassionate and individualized attention to each patient’s needs, while encouraging women to take an active role in their health decisions.” as stated on the practice’s website.

Back in 1982, Dr. Rosenberg earned his medical degree from the Emory University School of Medicine. Wanting to further his education, he went on to complete his residency in obstetrics and gynecology at Grady Memorial Hospital.

“For some doctors in training, delivering a baby can be a life-altering experience, and it was for me! I knew this was what I wanted to do with my professional life. Caring for a woman throughout her pregnancy and then delivering her baby is an awesome responsibility and privilege. There is an intimacy that is unique to this process that is different from any other found in medicine. Women who have a positive obstetric experience often remember their doctor for the rest of their life.” as stated by Dr. Rosenberg.

Following the doctor’s education, he became board-certified in obstetrics and gynecology by the American Board of Obstetrics and Gynecology, which is a non-profit organization that provides board certification for practicing obstetricians and gynecologists in the United States and Canada. He also attained fellowship status with the American College of Obstetricians and Gynecologists.

Obstetrics and Gynecology is the medical specialty that encompasses the two subspecialties of obstetrics (covering pregnancy, childbirth, and the postpartum period) and gynecology (covering the health of the female reproductive system – vagina, uterus, ovaries, and breasts). An obstetrician-gynecologist, or OB-GYN, is a healthcare professional who specializes in female reproductive health.

On a more personal note, Dr. Rosenberg is the consummate professional, an avid traveler, and a loving husband to his wife, Eliane, and father to his two beloved children. His daughter, Talia, and son, Lucas, are his pride and joy.
