

UKAS Accredits ABAC Center of Excellence's Anti-Bribery Certification Program

Building Trust. Ensuring Compliance.

“Congratulations to everyone at ABAC Center of Excellence on achieving accreditation for certifying anti-bribery management systems. Gaining this accreditation means that ABAC has demonstrated to UKAS that it has the necessary systems and processes in place to provide competent, consistent and impartial certification against the ISO 37001:2016 ABMS standard. In turn, holding accredited ABMS certification enables organisations to demonstrate to both regulators and customers that they have independently assessed and robust anti-bribery systems in place. As ISO 37001:2016 is an internationally recognised standard, this could be an important factor in helping organisations maintain or expand their business by showing that they satisfy national and international anti-bribery compliance requirements, both in the UK and abroad.
