

David Greaterex, MD, Diagnostic Radiologist with Seacoast Radiology

Get to know Diagnostic Radiologist Dr. David Greaterex who serves the population of Dover, New Hampshire

New York City, Mar 11, 2020 ([IssueWire.com](http://www.IssueWire.com)) - With an interest in cross-sectional imaging, Dr. David Greatorex is a board-certified diagnostic radiologist who practices at Seacoast Radiology in Dover, New

Hampshire. He is also affiliated with Wentworth-Douglass Hospital and Frisbie Memorial Hospital.

Today, as in the past, Seacoast Radiology is committed to providing the community with the highest quality diagnostic interpretations and image-guided interventions using the most advanced imaging technology available. The team of professionals currently provide general diagnostic, interventional, and subspecialty radiology services at Wentworth-Douglass Hospital and Frisbie Memorial Hospital, as well as multimodality breast imaging and intervention and Women's Life Imaging Center.

The doctor's acclaimed career in medicine began after he earned his medical degree from the Georgetown University School of Medicine in Washington, D.C. He then went on to complete his internship at Eisenhower Army Medical Center in Augusta, Georgia, followed by his residency in radiology at Tripler Army Medical Center in Honolulu, Hawaii.

A member of the American College of Radiology, Dr. Greatorex is board-certified in diagnostic radiology by the American Board of Radiology, a not-for-profit physician-led organization with headquarters in Tucson, Arizona. It oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

Diagnostic radiology refers to the field of medicine that uses non-invasive imaging scans to diagnose a patient. The tests and equipment used sometimes involve low doses of radiation to create highly detailed images of an area. A diagnostic radiologist uses X-rays, radionuclides, ultrasound, and electromagnetic radiation to diagnose and treat disease.
