

Honky Crew's Newest Track 'Can't Stop' Is a Blissful Journey with Its Smooth Jazz Blended with Modern Swing

'Can't Stop' by the budding and promising electro-swing duo Honky Crew is an idyllic experience. It draws the audience into an abyss of reverie and ecstasy.

Budapest, Mar 12, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Vintage or modern swing and conventional jazz have been the main inspiration behind the electro-swing Genre. The rightful balance of off-beat swing and classical jazz is presented in the single '[Can't Stop](#)' by poignant **Electro Swing Duo Honky Crew**. The song retains the brisk enthusiasm of live brass and early swing recordings creating a perfect

soundscape for the audience to move their feet and swept away by their mesmerizing nostalgic tunes.

The song has rounded off with fat beats and a pumping, groovy bass line, arranging a definite crisp **Electro Swing banger**. Their prowess over the genre can be observed in their upcoming event Modern 20's - **Electro swing Party on 20th March**. [Honky Crew](#) is an **Electro Swing duo** and lives show based on **drums** and a **DJ**. The group was founded by **ORDIMAN**, the well known **Electro Swing DJ/producer (Stereo Swing)**, and the vintage style drummer **LASZLO TAMASI**. Each live show is electrifying with authentic songs and remixes are written by the group and they are often accompanied by guest performers in their electrifying performances.

The single '**Can't Stop**' sets a milestone in the new **Neo Swing genre**. The catchy vocal hook as well as a flowing saxophone line, and the ragtime piano as a base of the song has become a trademark of their productions. The song will be released in April on **Electro Swing Thing Records**. Follow him on [SoundCloud](#), [YouTube](#), [Instagram](#), [Facebook](#), and [Spotify](#) .
