

Anand Balachandran, MD, FACC, a Cardiologist with Heart and Vascular Clinic

Get to know Cardiologist Dr. Anand Balachandran, who serves patients in Huntsville, Alabama.

New York City, Apr 22, 2020 ([IssueWire.com](http://www.IssueWire.com)) - As a board-certified and fellowship-trained cardiologist, Dr. Balachandran's areas of specialization include coronary artery disease, cardiac arrhythmias, hypertension, hypercholesterolemia, peripheral artery disease, congestive heart failure, and other cardiac conditions. He started offering comprehensive cardiology services at the Heart and Vascular Clinic in Huntsville, Alabama in 2016.

Throughout his academic career, Dr. Balachandran graduated from Kannur University in India in 2005. Upon relocating to the United States, he completed his residency at The Brooklyn Medical Center, where he was appointed chief resident for the residency program. Thereafter, he went on to complete his fellowship training at Weill Cornell Medical Center and at Mount Sinai-Beth Israel-Brooklyn Hospital Center, graduating as chief fellow.

He relocated to Huntsville in 2016 and has been providing cardiac care to patients in Madison County with services at Crestwood Medical Center and Huntsville Hospital. He has also co-authored many articles in scientific journals and has been actively involved in medical research.

A Fellow of the American College of Cardiology, the doctor is board-certified in both internal medicine and cardiovascular disease by the American Board of Internal Medicine, which is a physician-led, non-profit, independent evaluation organization driven by doctors who excel and strive to achieve higher standards for better care in a rapidly changing world.

In addition to being registered with the American Registry of Diagnostic Vascular Sonography, he remains a member of several professional societies, including the American Society of Echocardiography and the American Society of Nuclear Cardiology.

Cardiology is a branch of medicine that deals with the disorders of the heart, as well as the circulatory system. The field includes medical diagnosis and treatment of congenital heart defects, coronary artery disease, heart failure, valvular heart disease, and electrophysiology. Cardiologists are doctors who diagnose, assess, and treat patients with diseases and defects of the heart and blood vessels (the cardiovascular system).
