

## Eurocash Announces Tokens Swap

Eurocash, a leading token for digital exchange, announces the intent to complete a token swap in the coming months.

**Wallsend, Apr 3, 2020 ([Issuewire.com](https://www.issuewire.com))** - Eurocash, a leading token for digital exchange, announces the intent to complete a token swap in the coming months. This announcement is a follow up to the previous press release regarding an agreement to acquire assets related to the launch of decentralized/hybrid cryptocurrency exchange on the Ethereum blockchain. Eurocash seeks to obtain all

the necessary framework to begin offering services to the crypto community in the future.

Eurocash is grateful for the continued support from all those who are waiting patiently for the token swap. We will have full details of the token swap process in an upcoming announcement.

### **Token swap basic process:**

The ERC20 Eurocash tokens will be swapped over to new exchange-based tokens (symbol to be announced) with a 1:1 swap exchange rate (1 ERC20 Eurocash = 1 exchange based minted coin). Please be aware that the token swap will not allow for conversion back to Eurocash. We will burn the existing tokens in the smart contract which will remove the existence of tokens and holdings in externally owned accounts, being automatically airdropped new tokens in place of the old tokens for the addresses that held them.

### **\*Important Notice**

Please be aware of other exchanges or third-party claims that they support the Eurocash swap. The full details and process for token swap will be announced soon.
