

Little Spurs Remains Open And Adds Telemedicine During COVID-19 Pandemic

San Antonio, Apr 7, 2020 (Issuewire.com) - Little Spurs Pediatric Urgent Care, a highly regarded pediatric urgent care provider with 13 clinics around San Antonio, New Braunfels and Dallas, announces the addition of telemedicine and enhanced measures to make all clinics safe for both patients and staff members. "All our locations remain safe and open late with extended hours seven days a week," said Dr. Thomas Spurgat, CEO of the company. "Additionally, I am pleased to announce that we now offer virtual visits with access to our providers via telemedicine to determine if you should bring your child to one of our facilities."

At the moment, Little Spurs will not see patients at risk of COVID-19 nor will we be performing COVID-19 testing. We will refer those patients for testing. As a further precaution, Little Spurs have all patients over age 4 with cough, fever, shortness of breath or tachypnea to wear a face mask.

Little Spurs has implemented the following services and protocols:

- All staff members will wear protective eyewear and face masks during all patient encounters.

Staff members will be also screened for cough and fever prior to the clinic opening and will be sent home if they present with symptoms.

- Recommend families to refer to the Little Spurs website to schedule an in-person or telemedicine visit. The website also shows the current clinic wait times.
- Enhanced decontamination and cleaning procedures.
- Ready access to state health authorities to answer any questions and receive relevant information.

At this time Little Spurs recommends everyone to stay in their homes unless necessary and to practice social distancing and safe hygiene. We also recommend children be kept away from vulnerable populations who are especially affected by COVID-19.

About Little Spurs Pediatric Urgent Care

Little Spurs Pediatric Urgent Care opened in 2006 in San Antonio, Texas. With 13 locations in San Antonio and Dallas, we are open seven days a week with extended evening hours and see walk-in patients or through an online check-in system. Little Spurs has treated over 800,000 children and young adults over the past 14 years. We accept most commercial insurance and Medicaid plans.
