Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

Enjoying giving back both locally and internationally, Dr. Allen has been on several mission trips to Africa, Haiti, and the Dominican Republic. She provides dental treatment for women, men, and children in these poor countries. She also donates supplies for the mission trip when she is not able to go.

When she is not practicing dentistry, one might find her shopping, dining out or just relaxing, spending quality time with her family.
