

Lose Weight Gained from Corona FREE

Diet Guru Gives Back

Beverly Hills, May 8, 2020 (IssueWire.com) - The world's premier authority on weight loss and eating disorders gives BACK. After 30+ successful years as diet guru to the stars, Catie-of Beverly Hills is giving a gift of weight loss. Exposing trade secrets, she has vowed to help everyone that gained weight during the corona quarantine. Catie says, "As the quarantine took over all of our lives, I found myself trying to pile on a few extra lbs. Many people suffering from various illnesses can become extremely ill with unwanted weight gain. I've been VERY BLESSED in my life to be honored globally and by the white house. I wrote one of the first hospital treatment programs for eating disorders. As a pioneer in this field, it's time for me to "GIVE BACK". Starting Sunday, I will go LIVE on ZOOM and begin teaching the "Diet Secrets" that Ive used as my trade secrets for over 30 years. I will begin by teaching the KETO TRUTH. It's Not exactly what you think!! You can lose 1/2 lb per day safely without gimmicks. I combine food chemistry with psychology to repair sluggish metabolisms. Weight loss is usually permanent. I want to give a FREE 10 lb weight loss program to everyone that gained weight during this isolation period. NO GIMMICKS. Will you help spread the word?
thank you!

Sincerely:

Catie

BTW:

I was on life support a few years ago.... I KNOW the suffering caused by illness. Isolation, fear, nightmares, PTSD etc. The experience of learning to "live" again is what has made me want to "give" during these frightening times. I am giving what I have and that's knowledge. Life-saving knowledge.
