

Nicholas G. Sotereanos, MD, an Orthopaedic Surgeon with Allegheny Orthopaedic Associates

Get to know Orthopaedic Surgeon Dr. Nicholas G. Sotereanos, who serves patients in Pennsylvania.

New York City, May 8, 2020 (Issuewire.com) - Dr. Sotereanos is a board-certified and fellowship-trained orthopaedic surgeon in practice with Allegheny Orthopaedic Associates in Pittsburgh and West Mifflin, Pennsylvania. His areas of expertise include anterior hip replacement, arthritis, developmental dysplasia of hip, direct anterior minimally invasive total hip arthroplasty, hip arthritis, hip arthroscopy, hip

problems, hip replacement, knee problems, knee replacement surgery, Legg-calve-Perthes, osteoarthritis, revision hip replacement, revision knee replacement, slipped capital femoral epiphysis, and ultrasound-guided injection.

Allegheny Orthopaedic Associates have a high level of experience and skill in the evaluation and treatment of many different conditions and injuries. Using an array of cutting-edge treatment options, they specialize in helping individuals bounce back from problems they thought would never go away, thereby allowing them to leave the pain behind and enjoy an active lifestyle.

Throughout his academic career, Dr. Sotereanos earned his medical degree from Drexel University College of Medicine. He then went on to complete his residencies in general surgery and orthopaedic surgery at Allegheny General Hospital and the University of Pittsburgh Medical Center, followed by his fellowship in adult reconstruction at Anderson Orthopaedic Clinic.

The doctor is board-certified through the American Board of Orthopaedic Surgery, which is an organization with the goal of establishing educational and professional standards for orthopaedic residents and surgeons, as well as evaluating the qualifications and competence of orthopaedic surgeons. He has trained twenty-six fellows in adult reconstruction as the Director of Adult Reconstruction at Allegheny General Hospital, as well as has performed the first two-incision technique and same-day minimally invasive total hip arthroplasty in Pittsburgh.

Among his professional affiliations, he is a member of the Allegheny County Medical Society, the American Academy of Orthopaedic Surgeons, the American Medical Association, the Interstate Orthopaedic Society, the Pennsylvania Medical Society, and the Pennsylvania Orthopaedic Society. He has also published and presented extensively on orthopaedic surgery topics.

Orthopaedic Surgery is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopaedic surgeons use both surgical and nonsurgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders. They work in clinical and hospital settings.
