

Connor G-Jones First Debut Single release

Penryn, Jun 7, 2020 (Issuewire.com) - Liverpool/Falmouth based blues-rock guitarist Connor G-Jones announces first debut single release "Shattered Glass" to be released in early June

"Shattered Glass" is the first of an upcoming string of releases planned by the artist with prospects for an EP/Album release in the future.

With the use of attacking chords and uplifting melody, help to both highlight and distract from the

metaphorically dark lyrics around war and Isolation within one's self.

Connors on words on this meaning;

"the song takes a meaning of keeping yourself going, like how you can have the whole world 'shattered' around you but still trooper through it."

With influences ranging from early blues artist Robert Johnson to rock and roll legend Chuck Berry and hard rock pioneers AC/DC. Connor has a unique style of music; from punchy rock and roll to melodic ballads he brings a new/old energy within his music.
