

Jonathan M. Mori, MD, FACP, Internist

Get to know Internist Dr. Jonathan M. Mori, who serves patients in Mather, California.

New York City, Jun 19, 2020 ([IssueWire.com](https://www.issuewire.com)) - Dr. Mori is a skilled internist whose areas of expertise include spinal cord injuries and aviation preventive medicine. He was the lead physician for Spinal Cord Injuries within the Primary Care Division at Sacramento VA Medical Center - VA Northern California Health Care System from January 2014 until March of 2020.

The Sacramento VA Medical Center is a 60-bed, state-of-the-art, inpatient facility offering a full range of

comprehensive health care services including medical, surgical, primary, and mental health care. The medical center, which is comprised of 24 medical-surgical beds, 16 TCU beds, 10 ICU beds, 16 BHICU, and a four-room operating suite, also houses a cardiac catheterization lab, a gastrointestinal & endoscopy suite, angiography capability, and a 16,000 square-foot of a research laboratory. The medical center offers a wide range of outpatient and diagnostic services, including mammography, MRI, CT, and PET scanning.

Prior to his current endeavours, Dr. Mori served as an attending physician to other local hospitals, including the Women's and Children's Hospital and Lake Charles Memorial Hospital.

His acclaimed career in medicine began after he earned his medical degree from Columbia University Vagelos College of Physicians and Surgeons in 2009. He then went on to serve his residency in internal medicine at Stanford University in 2012.

Highly regarded for his profound knowledge and exclusive set of skills in his profession, Dr. Mori is board-certified in internal medicine by the American Board of Internal Medicine, a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world. He is also a Fellow of the American College of Physicians (FACP) and a member of the American Medical Association.

In addition to his clinical functions, he has written an article titled "External Beam RadioTherapy Boost to Reduce the Impact and Caused by Edema in Prostate Permanent Feed Implants."

Internal medicine is the medical specialty dealing with the prevention, diagnosis, and treatment of adult diseases. Physicians specializing in internal medicine are called internists. They manage and prevent common and complex diseases by providing comprehensive care and promoting overall well-being.
