

Milton Giron, MD, FASN, a Nephrologist with Amarillo Medical Specialists, LLP

Get to know Nephrologist Dr. Milton Giron, who serves patients in Amarillo, Texas.

New York City, Jun 10, 2020 (IssueWire.com) - Named a Texas Super Doctor from 2011-2019, Dr. Giron is a board-certified nephrologist with Amarillo Medical Specialists, LLP in Texas. He has over three decades of experience in his field.

Amarillo Medical Specialists is the largest private practice Internal Medicine group in the Texas Panhandle. Focused on providing a patient-centered approach, the practice offers outpatient primary care and specialty consultations, in-patient hospital care and consultations, laboratory services, in-office radiology, and ultrasound services, access to lab results, prescriptions, request refills from home via internet patient portal, at no extra cost, bone densitometry, nuclear medicine imaging, and treatment, diagnostic testing for patients throughout the Amarillo area, as well as clinical research studies using new or investigational treatments.

A 1981 graduate of the University of San Carlos, Guatemala School of Medicine, Dr. Giron relocated to the United States to further his training. He completed his residency in internal medicine at Berkshire Medical Center and his residency in nephrology at Baylor College of Medicine in Houston. He established his medical practice in Amarillo in 1993.

A Fellow of the American Society of Nephrology (FASN), the doctor is board-certified in internal medicine and nephrology by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care when the time comes.
