I have seen patients regain their sight and hearing, I have seen women go from not being able to conceive to being pregnant. I have seen patients get off of a number of medications, including blood pressure medications. I have seen patients who were suffering from headaches for decades live life pain-free. Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain and back pain. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.

On a more personal note, Dr. Hilario has been blessed with a beautiful family. He has three amazing kids, two boys and one girl. He loves sports and any physical activity. When he is not in his office or with his family, one can find him in his local church, Gracepoint Gospel Fellowship in New City, New York. Above all, his relationship with Christ is the most important.
