

Alfredo Rodriguez, MD, a Plastic Surgeon with Southwest Plastic Surgery Center

Get to know Plastic Surgeon Dr. Alfredo Rodriguez, who serves patients in Mesquite, Texas.

New York City, Jul 20, 2020 ([Issuewire.com](https://www.issuewire.com)) - Recognized as an accomplished plastic surgeon, Dr. Rodriguez is the Founder of Southwest Plastic Surgery Center in Mesquite, Texas. He offers a personalized, state-of-the-art approach to cosmetic procedures, including facelifts, tummy tucks, liposuction, breast augmentation, rhinoplasty, BOTOX and more.

Since 1979, Southwest Plastic Surgery Center has established a surgery division, offering plastic surgery and developing a cosmetic surgery service for its Mesquite clients in Dallas County. This has helped make the Center become a local favorite, operating by the guiding principle that each patient is unique, and, as such, is treated with individualized care customized to meet his or her needs.

More than 8,000 miles separate Manila from Dallas, a journey that Dr. Rodriguez made in stages. It began at the University of Santo Tomas Faculty of Medicine and Surgery, where he earned his bachelor's degree and a medical degree. He then set himself up for a residency in general surgery at the

University of Philippines, after which he relocated to the United States.

In New Jersey, he established his US credentials with a residency in general surgery before completing a residency in plastic surgery at Saint Luke's Hospital in Cleveland. He first arrived in Dallas as the Chairman of the Department of Surgery at Dallas Regional Medical Center before opening Southwest Plastic Surgery Center.

At the Center, he and his staff work with patients on liposuction and cosmetic surgeries along with less-invasive options for rejuvenation such as microdermabrasion and chemical peels. Dr. Rodriguez is equally adept as a fellowship-trained hand surgeon, specializing in alleviating the pain and suffering caused by carpal tunnel syndrome, repetitive stress syndrome, work-related hand injuries, broken fingers, and other general hand injuries. Moreover, he can help with mole removal, skin lesions, cyst removal, and other types of skin issues, and works with a number of other highly qualified physicians.

Bringing a vast wealth of experience and knowledge to every surgical procedure he performs, the doctor is board-certified in plastic surgery by the American Board of Plastic Surgery (ABPS). The mission of the ABPS is to promote safe, ethical, efficacious plastic surgery to the public by maintaining high standards for the education, examination, certification, and continuous certification of plastic surgeons as specialists and subspecialists.

To advance his professional efforts, he remains a member of the American Society of Plastic Surgeons, the Dallas Society of Plastic Surgeons, the American Association for Hand Surgery, the American Society of Plastic and Reconstructive Surgeons, and the American Society for Aesthetic Plastic Surgery.

Plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two main categories - reconstructive surgery and cosmetic surgery. A plastic surgeon's primary responsibility is performing surgical and non-surgical procedures, and they use a variety of reparative and reconstructive techniques to get the job done.

In addition to being able to relate to his patients, Dr. Rodriguez donates his time, his surgical skills, and money to those less fortunate. A veteran of many international medical missions, he has donated thousands of dollars, medical equipment, medicines, as well as has performed numerous reconstructive surgeries in distant lands and far away places in less than ideal surgical conditions to those who otherwise would never have access to any physician of any kind.
