

## A Look Into Joseph Hanna Photography

**New York City, Aug 22, 2020 ([IssueWire.com](http://IssueWire.com))** - Joseph Hanna is one of the rising photographers of his generation. Those who have followed his career saw how he had made a name for himself in just eight months. Starting out in January this year, he continues to prove why people should take a look into his work.

If you were to ask what makes him incredible, the answer would be his ability to take a photo and translate the moment into a joyful and lasting memory. Joseph Hanna knows exactly how to make his work speak for himself. He does not hold back in exploring his craft and continuously challenges himself to go beyond what he has learned.

As a matter of fact, he is known for consistently delivering creativity and quality. After all, he has mastered his craft in seven years. Before deciding to go into business, he answered the call of photography and learned all about the basics. Adding videography and web and graphic design to his skills, he then took one step further and built his own brand, Joseph Hanna Photography.

If not for his family who pushed him to make what was just a dream into a reality, he won't find himself getting his license and starting a journey of a lifetime. Like many say, "You better use it before you lose it." Now he's on his way to prove why he deserves to be seen.

Behind the camera, Joseph Hanna makes sure he understands the vision of his clients. Doing so allows him to deliver the output that they need from him. He also goes out of his way to meet every need of his clients. He has set the standard when it comes to customer satisfaction.

"I am always updating my clients throughout the project. Constant communication with my clients and their final approval is what Joseph Hanna Photography is about," he shares. Besides photography, his graphic design and video work also captivate both clients and creatives.

His level of professionalism usually surprises any client that works with him. As such, Joseph Hanna has since been thriving in the industry with a great clientele. He seeks to further his influence and become one of the prolific photographers in the Bay Area and the rest of the world.

He continues, "And maybe this will become my full-time job. I wouldn't really call this a job, but a passion. I would rather do something that I love and have a passion for than something I hate."

If there's anything that Joseph Hanna believes in, it's that "photography is not just looking, it's feeling. If you can't feel what you're looking at, then you're never going to get others to feel anything when they look at your pictures."

It is obvious that his work goes beyond just photography and is a display of his phenomenon as a talented photographer and creative. Indeed, Joseph Hanna is a thriving creative who has built a name for himself by turning his dreams into a successful career. Connect with him on [Facebook](#) and [Instagram](#).
