

Dony's 3-ply Antimicrobial Cotton Reusable masks gain trust of millions across the world

DONY MASK - premium antibacterial cloth face mask (washable, reusable) with CE, FDA, TUV Reach, DGA Certification with 3-ply cloth face mask quality has passed the stringent standards in the world to export to difficult markets like the USA & Europe.

Thanh Pho Ho Chi Minh, Aug 15, 2020 (Issuewire.com) - The COVID-19 pandemic has led to a situation where people cannot even think of going out without wearing a mask. To strengthen people's guard against the deadly virus, **Dony** has been supplying premium quality 3-ply antimicrobial cotton reusable masks for children and adults across the entire globe.

Made with advanced technologies and trusted by the government as well as private organizations, the company has made a name for itself with its exquisite products and impeccable services. These [antibacterial fabric face masks](#) are widely recognized and certified following the international standards set by industry experts.

Compared to other masks, Dony Mask has turned out to offer greater benefits against the harmful germs, especially the Coronavirus that has taken the lives of millions of people and is continuing to do so.

Dony is now considered as the most trusted manufacturer and supplier of antibacterial fabric respirators across the world. The company has already [exported tens of millions of 3-ply Anti-drop Reusable Antibacterial Cloth face masks](#) to countries like China, USA, Canada, Australia, South Africa, UK, Europe, Ireland, Germany, France, Russia, UAE, Sri Lanka, Japan and many more.

Apart from these, the company also has [face mask exclusive distributors](#) in Malaysia, Saudi Arabia, Belgium, UAE, Australia, etc. Organizations and individuals across the world prefer these masks to anything else, and there are certain reasons to back up their preference:

- The masks meet all the rigorous requirements for global export and use.
- Its strap could extend up to 270 percent of the original length, which reduces the discomfort for users when wearing the mask for a long time.
- It sustains anti-bacterial capability up to 99,9% even after 60 washes (no other masks reach this pinnacle yet).
- The masks are equipped with three layers for maximum protection (Antimicrobial Finished).
- People can take out the packaging and wear the masks without washing (Dony Mask are sterilized with E.O gas technology used for Medical Supplies - E.O gas has the ability to penetrate the tiniest of pathways and destroy all kinds of bacteria and virus).
- These are super skin-friendly and tailored to even those with sensitive skin.
- Comfortable for prolonged use as it is odor-free, adjustable, and breathable.
- No suffocation issues encountered, thus ideal for sports players.
- Filter dust particles & Fungi-proofing.
- Available in different colors that are currently in fashion.
- Resist dust, odor, and UV (The UV-resistance level of our face masks is 99.95%, which is equal to that of premium sunscreen lotions).
- Eco-friendly & save over 85% compared to disposable masks.

These features of **Dony Mask** leave you with no choice but to make your purchase, especially during this pandemic. Well, if you are still hesitant, then you may check the certifications acquired by these masks:

FDA Certificate: The Food and Drug Administration of the United States has confirmed that Dony Mask meets all the safety criteria for export to the US market.

ISO 9001:2005: Dony Mask has been created with the use of the latest quality management system of the ISO (International Standards Organization).

This system ensures the quality of products manufactured by a company in the most comprehensive way because it covers all aspects and every step of the whole production process.

C.E Certificate: Dony Mask has got the ConformiteEuropeenne certification. In other words, our products have passed strict standards of the EU (European Union) for safety, health, and environmental protection. They are welcomed throughout the European Economic Area (EEA) as well as in any part of the world!

TUV Reach Certificate: The TÜV Rheinland (Technical Inspection Association of Europe) has made numerous technical checks on Dony respirators and concluded that the products contain no toxic chemical materials and are absolutely safe for long time use.

Users never have to worry about serious illnesses such as cancer, infertility, mental issues, and even the slightest allergies, like when wearing other conventional masks.

Aseptic Inspection Certificate: Dony's antibacterial fabric masks meet biological safety criteria for consisting of no harmful microorganisms. The manufacturing process ensures that from the input materials to output products are 100% microorganism-free.

Intertek Certificate: This is one of the most significant certifications that insist on the superb quality of **Dony Mask** products. The Intertek Group plc - a famous British multinational company on assuring, inspecting, testing, and certification products - has made a range of thorough tests on Dony antibacterial fabric respirators.

Certification for Free Export: This certification allows Dony respirators to be exported to any country and will never be retained in Vietnam customs authority. It is not only a crucial certification for wholesalers and suppliers of Dony to transport goods but also a proof for the excellency of Dony Mask.

In fact, dozens of millions of Dony respirators have been exported to the USA, Europe, United Kingdom, China, African, Japan, Australia, Africa, Canada, Mexico, Dubai, Korea, Kenya, Ireland, Arabic and so on.

DGA certification: The French Ministry of Defense issues this certificate to Dony Mask after they have found out that our respirators can fight back the COVID-19 virus with the efficiency of up to 99% during the first 30 washes. After that, they can still resist up to 96% of the COVID-19 viruses, which makes them a must-have item during the pandemic time.

Apart from these, there are other related certificates, such as TGA, SASO, 870QD, and CFS.

Dony masks are 99.95% UV-resistant (equal to premium sun cream, sufficient to alleviate all harmful impacts of UV on human skin such as burning skin, blackening skin, or skin cancer) and 100% waterproof (the maximum level to ensure that they will never get wet or penetrated by dirty water).

Also, the breathing resistance parameter is as low as 1.8 mm H₂O, which allows the wearers to breathe without any discomfort even during stressful physical activities like running, playing, gymming, etc.

The most fascinating thing about these masks is that the respirators can protect the wearer from more than 99.9% of bacteria attacking them even after 60 washes. Wearing these antibacterial face masks is certainly one of the most effective yet budget-friendly ways of keeping yourself and your loved ones safe.

On the evening of June 5, 2020, an event was organized during which [Dony Garment Company](#) and other Vietnamese organizations donated medical materials to the United States. In this event, 100,000 antibacterial gauze masks worth more than VND 10.5 billion were presented by **Dony**.

These masks have gone through several stages of testing and have always come out successful, proving the quality maintained at the manufacturing level time and again. The company takes pride in being the only supplier of reusable face masks that have been widely recognized and accepted by the organizations and individuals of the US.

The US ambassador in Vietnam, Mr. Daniel Kritenbrink has expressed his heartfelt gratitude and promised that these medical supplies would be supplied to various places of the country like New York, California, etc.

The co-owner of Toop Sports and also a partner of Dony, Razz Yayapour said, 'Since we have done business with Dony, and we have built a trust between us, Dony offered Toop Sports to distribute and sell their face masks in the US market. With Dony's help and cooperation, we can continue to produce, ship out, and sell face masks.'

Dony has pledged to offer 100% sterilized masks and will be taking full responsibility if any germs are found. You will get the delivery within the stipulated time mentioned during the placement of the order and if not followed, the company will provide a 100% refund.

So, what are you waiting for? [Visit the official website](#), and ensure your safety by placing your first order.
