

## Foster Pro Audio Debuts Exclusive Speaker Line

Consumers will be able to purchase Foster Pro Audio speakers at the end of the year

**Honolulu, Aug 18, 2020** ([Issuewire.com](http://Issuewire.com)) - [Lyron Foster](#) is an African American entrepreneur, author, coder, filmmaker, and musician who is excited to add a new company to his portfolio. With the launch of Foster Pro Audio, consumers everywhere can get their hands on leading audio technology.

The Foster Pro Audio line is expected to include a wide array of options, including solutions for home theater and a concert and stadium line array of speaker systems. According to the team at Foster Pro Audio, they will be initially launching three flagship models. In October 2020, Foster Pro Audio is slated to unveil further details regarding their first three models and the specifications and pricing of each model.

Until then, Foster Pro Audio is captivating the attention of people everywhere by sharing sneak peeks of production and more via social media. Consumers can get a close up look at Foster Pro Audio and everything they have to offer by following the company on Twitter and Instagram.

According to Foster, the new speakers coming from Foster Pro Audio will offer the height of sound technology for anyone who wants a better audio experience. With professional-grade equipment, Foster Pro Audio is bringing exceptional audio experiences to people's living rooms, home theaters, and more.

Consumers will get their first official look at the lineup from Foster Pro Audio this fall, but it won't be long until they can get their hands on the speakers. According to Foster Pro Audio, their products will be available in initial target markets North America and South America by late December 2020. Foster Pro Audio will debut in Europe in the third quarter of 2021, and the company plans to launch its product line in Africa during the fourth quarter of 2021.

More information about Foster Pro Audio, as well as updates on the soon-to-be-unveiled line of superior audio equipment they are crafting, can be found at <https://fosterproaudio.com/> and <https://twitter.com/FosterProAudio>.
