

Shifaa Chooses Sudan Digital As Digital Marketing Agency

al-Khartum, Aug 19, 2020 (IssueWire.com) - [Shifaa](#) is a leading [healthcare on-demand app](#) in the UAE allowing patients to search, browse, book, and rate healthcare providers. Its users can search for healthcare providers that work with their insurance, by specialty, location, or rating. As the digitization of healthcare evolves, Shifaa aims to become a [leading source of new patients](#) for healthcare providers, as well as simplifying the patient selection process by providing timely information and direct booking capabilities.

As part of its continued growth, Shifaa undertook a competitive pitch to select a digital marketing agency. The primary objectives of the digital marketing agency will be to grow the Shifaa patient and healthcare provider audiences, as well as position Shifaa as a thought leader in the space. Shifaa selected [Sudan Digital, a leading Middle East digital marketing agency](#) that specialises in delivering KPI driven digital marketing solutions.

Azzan Ishag, Founder of Shifaa, said of the appointment, “We were looking for a digital marketing agency that had a proven record of success in growing audiences, and were able to be as excited about our future as we are. The Sudan Digital team fit the bill perfectly. They are passionate, knowledgeable and outlined a clear strategy that exactly fit our requirements.”

Lumyaa Kamal, CEO of [Sudan Digital](#) said, “We are careful to only select clients that we are confident we can have a transformative impact upon. Shifaa works in a growing, timely space: healthcare on-demand. Globally there’s a lot of interest in e-health solutions. We believe in Shifaa and their aims, and are confident we can have a significant impact on their business.”

Shifaa can be downloaded on the app store for free and will soon be released on the Playstore.
