

The Connoisseur Launches its first 3D Art Exhibition

The Connoisseur

New Delhi, Aug 3, 2020 (Issuewire.com) - The Connoisseur showcases its first [3D art exhibition](#) from August 1 - 11 on its platform. It features 25 exceptional contemporary artworks that include the masters and it is accessible on a first-come, first-served basis. The theme chosen is 'diversity' which has been inspired by one of the world's most diverse countries - India.

The exhibition doesn't focus on a particular style or subject but rather you will experience a blend of abstract, figurative, surrealism, portrait, etc. [The Connoisseur](#) is a new online art gallery with a vision to

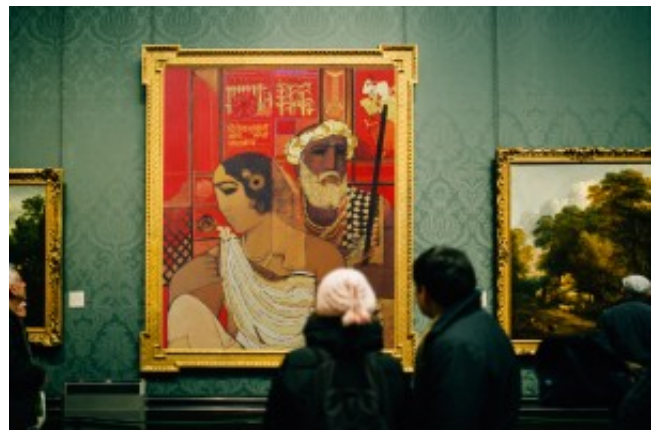

highlight Indian art.

“ Art is one industry that has always been appreciated but lacked the commitment to move forward together which has made it suffer over the years. Indian art goes back to many thousand years BC yet it is still to be discovered to its true potential in the eyes of the world. Every ancient street, as well as the medieval architectures, bespeaks of the art that cropped in the minds of the humans in this subcontinent. With the sudden onset of pandemic & shutting of different doors of the creative world, I felt something unique was required to make these creations reach the people. An online 3D exhibition seemed the best solution. The intention was to bring the aura of visiting a gallery with that to an online space” - [Sabyasachi Moulik](#) (Founder & Strategist)

[The Connoisseur](#) is a curated destination with a strong focus on the design & experience for the visitors and this is what does true justice to an artist's work. Every artwork is selected from the urban & exotic regions in India with their partner galleries. The whole aesthetics of the platform is what really catches the attention.

They plan to host 3D exhibitions every month based on certain themes and also create a parallel series on affordable luxury art, so everyone can own a creation one day.

The Connoisseur has an exquisite [original artwork](#) collection from Lalu Prasad Shaw, Jogen Chowdhury, Manu Parekh and many more established as well as emerging artists from India. They also have [limited edition serigraphs](#) of MF Husain best works.
