

Edielyn Quijano, MSN, FNP-BC, a Family Nurse Practitioner with Beauty Perfect Medical Aesthetics

Get to know Family Nurse Practitioner, Edielyn Quijano, who serves patients in California.

New York City, Sep 28, 2020 (IssueWire.com) - Edielyn is a board-certified family nurse practitioner with more than 15 years experience in the medical field. She has always been interested in the field of beauty and is updated in the latest procedures and anti-aging treatments. Because of her compassion and kindness to help people with their skin problems and facial appearance, she decided to turn her passion into a business.

Serving as the Founder of Beauty Perfect Medical Aesthetics, her expertise is to provide natural-looking results that exceed expectations. She is committed and dedicated to satisfying clients' needs to achieve their best look under Medical Director, Dr. Terry Lee. Some of her services include anti-wrinkle treatment, dermal fillers, chemical peels, facial treatments, and body contouring.

At the start of her academic career, Edielyn obtained her Bachelor of Science in Nursing degree from St. Jude College. She then went on to complete her Master of Science in Nursing degree from the University of Phoenix.

Specializing in family practice, pediatrics, and medical aesthetics, she is affiliated with Baldwin Park Medical Clinic, Garfield Medical Center, and San Gabriel Medical Center. She believes a true leader has the passion to pursue and achieve dreams to the fullest - one who is selfless and contains self-interest in lieu of the common good.

Holding herself to a high level of excellence, Edielyn remains a member of the American Association of Nurse Practitioners, which is the largest and only full-service national professional membership organization for NPs of all specialties.

A Family Nurse Practitioner (FNP) is an advanced practice registered nurse who works autonomously or in collaboration with other healthcare professionals, to deliver family-focused care. Given the rather broad nature of the "family" patient population focus, FNPs offer a wide range of healthcare services that revolve around the family unit; from health promotion and disease prevention to direct care and counseling across the lifespan.

An expert in her field, Edielyn was featured in MISS MAGAZINE as Health and Beauty Expert 2019 and belongs to the Top 100 Injectors in America 2019.

On a more personal note, she is fluent in both English and Tagalog.
