

Get Rid of Your Phone Addiction with Stay Away Android App

Track Daily/Weekly App Usage

Pune, Sep 18, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Stay Away Android App - An app to keep you away from phone addiction, now available for Android devices.

Stay Away Android is available on the Google Play store to help people leave their phone for a longer time and stay focused and productive in their lives. This app tracks the phone usage time and informs the most addictive things you are using in the phone.

This app has many advanced features to track phone usage time. Using this app, track each app usage time and check the time you spend on each app, especially on social media apps. Daily and weekly phone usage are now easy to track using its feature - daily phone usage tracker and last 7 days usage.

You can set downtime using this app, which will not allow access to apps that are addictive. This app will help to limit your screen and help you stay away from the phone. Furthermore, you can also set usage limits to social media apps for a longer time. In the downtime, you can allow usage of some important apps, including banking, email, and more.

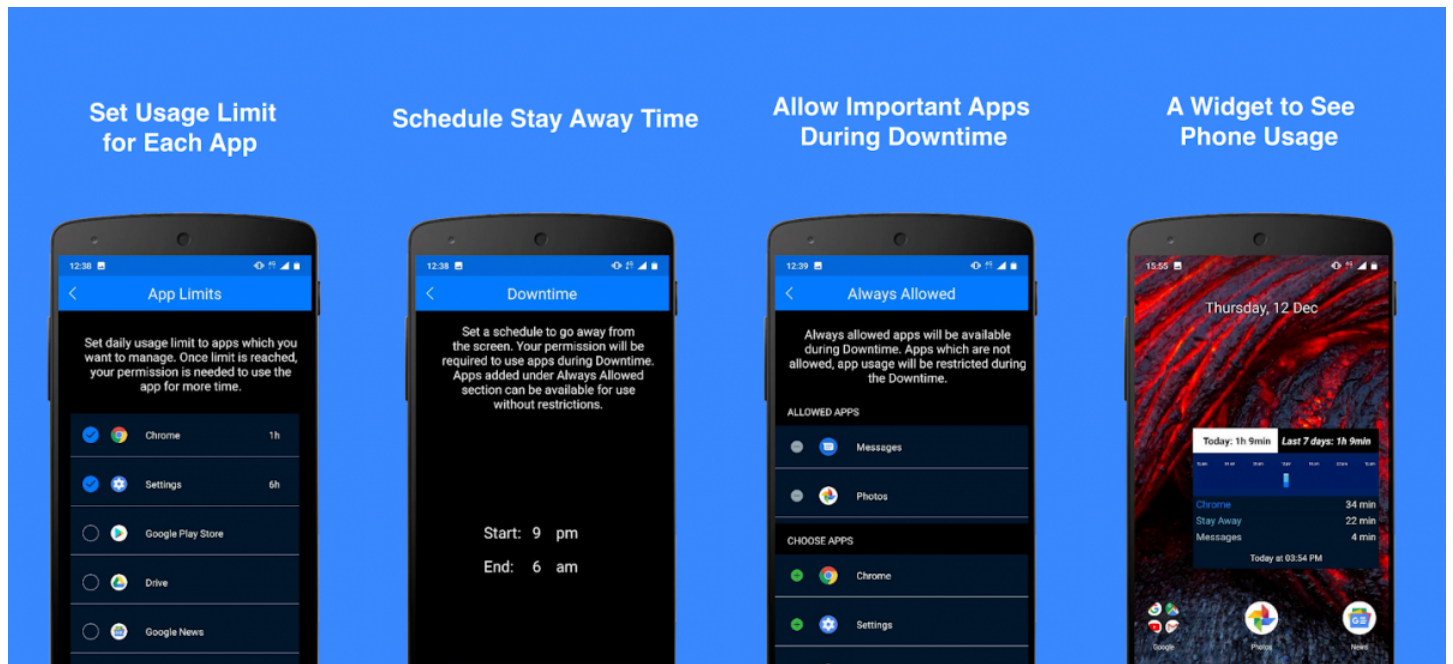

The widget is there to get easy access to all the information related to your phone usage. You can check usage quickly without opening the app.

The Stay Away app is practical and already helped many youngsters to leave this addiction and start their focused and productive life. This app is also an anti-social app because it helps to stay away from the most addictive social media apps.

Stay Away android app is available on the Google Play Store.
