

BitBerry Signs Strategic Partnership with OKEx to Expand their Crypto Footprints Globally

Strategic Partnership

Seoul, Oct 13, 2020 ([Issuewire.com](https://www.issuewire.com)) - BitBerry has signed a strategic partnership agreement with OKEx to expand its crypto footprints globally. In the partnership, BitBerry who is based in South Korea will help OKEx to gain a stronger foothold in the local market while OKEx who is a global cryptocurrency exchange will help BitBerry to reach out to more users globally.

“We will be OKEx’s eyes and ears in the South Korean market. We want to do our best for OKEx and help them gain more Korean users on their exchange via our wallet. This will also help us gain more attention in the global environment. Our wallet is a mature product and we have been working on it since 2017. We will secure your assets with the highest level of security.” CEO Jae Bum Yoo highlighted in his speech.

Most recently, OKEx CEO Jay Hao, announced that OKEx has become the first exchange to offer a full suite of trading products for Uniswap. BitBerry is also working on providing a more secure environment for the DEX and DeFi environment. CEO Jae Bum Yoo added that he also believes that CeFi and DeFi will complement each other and having a wallet that can connect both will be an added advantage for the industry to grow further.

In the past, BitBerry has forged partnerships with some of the leading brands such as Upbit, Klaytn,

Terra, and more. The partnerships have been fruitful and are their wallet are integrated and running smoothly. MonsterCube who owns BitBerry and also SODACoin that is listed on Bithumb is also using their technology and is well received by the users in South Korea. Similarly, they hope to attain similar success with OKEx, aiding them in their journey to build a global ecosystem for the cryptocurrency industry.

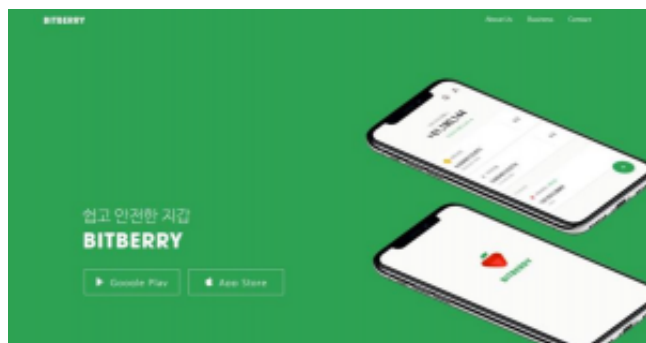

BitBerry, founded in 2016 is one of the leading cryptocurrency wallets in South Korea. Their mission is to make money transfer simple, easy, and secure with the usage of blockchain technology. Till date, BitBerry has more than 100,000 users and is planning to expand its technology globally by integrating wallets and banking services to manage digital assets more efficiently.

About BitBerry
