

Fido Merchant Services Enhance Online Payments Security for EU and EEA SME Companies

Fido Merchant Services a UK based Online Payments company invest in protecting the card ecosystem by offering its security and chargeback protection for small to medium companies due to increased fraud risk from Covid-19 who are based in UK/EU/EEA.

North Yorkshire, Oct 15, 2020 ([Issuewire.com](https://www.issuewire.com)) - Fido Merchant Services is an online payment company specialised in providing [payments solutions](#) for online companies based in the UK, EU, and EEA.

“This year the online payments sector has soared and is expected to continue to rise. In most part due to Covid-19, people’s shopping habits have changed, from smaller items traditionally bought in store, to gaming, property, and service industries, no part of the marketplace has been left unaffected, and smaller businesses may have felt on the backfoot to try and catch up. With such a marked increase, how does the smaller online business make sure it’s getting the most competitive deal whilst making sure that it protects itself from fraud and chargebacks.” said Paul Kenner, Head of Sales in the EU for Fido

Fido Merchant Services, a UK based Online Payments Processing and [Payments Gateway](#) Company and market leader in European financial services, believes it has the answer and is offering to help smaller and medium sized businesses who may not be getting the best deal and give them access to its world leading technologies and fraud mitigation techniques.

“We would love to offer the same support to these smaller companies we have traditionally offered to larger, high-risk businesses. This includes 3D secure and transaction monitoring, protecting the merchant against [chargebacks](#) without risking conversion and access to our tier one gateway. We want to enable the merchant to have full access to our knowledge and support, and we can do this at an extremely competitive rate.” added Paul Kenner.

Fido Merchant Services’ advanced technology and payments gateway integrates to over 300

payment methods, including Visa, Mastercard, American Express, to allow merchants to accept payments from anywhere at any time of the day. Fido Merchant Services also provide alternative payment methods such as Skrill, Neteller, and many others if merchants require.
