

## Jorge Paez, DDS, a Dentist with Nevada Dental Esthetics

Get to know Dentist Dr. Jorge Paez, who serves patients in Las Vegas, Nevada.

**New York City, Oct 15, 2020 ([IssueWire.com](https://www.issuewire.com))** - Dr. Paez is a Las Vegas dentist serving Summerlin, Spring Valley, and nearby Nevada locations at Nevada Dental Esthetics. Since opening the practice in 1999, he has been committed to delivering the highest standards of dental care using the latest cosmetic dentistry techniques.

“It’s not enough to just meet people’s expectations; you have to exceed them. That’s a commitment I

made to myself years ago, and it remains the foundation of my practice today. Nothing can replace the value of building a relationship with the people you serve” expressed Dr. Paez.

Never settling for less than the best, this has been his guiding philosophy since he began his dentistry career, and is one he has never abandoned. He pursues the most advanced dental technology and techniques with the highest safety profiles so that his patients can always walk away satisfied. He can perform any dental procedure a patient needs in order to achieve or maintain the smile that they have always wanted.

Before embarking on his professional journey, Dr. Paez graduated with his Doctor of Dental Surgery degree from the Boyne School of Dentistry at Creighton University in 1995. He then went on to further his training at the Las Vegas Institute for Advanced Dental Studies, which is considered one of the best schools for postgraduate cosmetic dentistry training.

Continuously driving dentistry forward, he is a member of the American Academy of Cosmetic Dentistry, the Academy of Laser Dentistry, the Southern Nevada Dental Society, the American Academy of Dental Sleep Medicine, and the American Dental Association. In addition, he is an active participant in continuing education course work in new cosmetic dentistry techniques and methodologies, as well as training to treat sleep apnea.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.
