

## New ACPE Accredited 100% Virtual IV Certification Program For Pharmacists And Pharmacy Technicians

IVCompoundingTraining.com

**Orlando, Oct 23, 2020 ([Issuewire.com](http://Issuewire.com))** - Healthcare Training, LLC a leading provider of Pharmacy IV Certification Training announced today a new ACPE accredited 100% Online Virtual IV Certification Training Program for Pharmacists and Pharmacy Technicians.

The new Virtual IV Certification Training Program provides pharmacists and pharmacy technicians with

sterile compounding focused certification training in a convenient, easy-to-use, online format without the need for travel to distant locations and incurring additional expense.

This is one of the many programs aimed at supporting pharmacists and pharmacy technicians along their career paths and those who want to transition into a sterile compounding pharmacy setting.

"The *Virtual IV Certification Program* is an excellent resource for individuals and facilities conducting sterile compounding to support their pharmacy personnel in becoming certified in sterile compounding and aseptic technique," said **Mayur Vibhakar, Chief Executive Officer of Healthcare Training, LLC**. "Organizations can leverage the Virtual IV Certification Program to meet the growing need for reliably trained, and IV Certified pharmacists and pharmacy technicians.

Available for purchase as a stand-alone offer, the *Virtual IV Certification program* is a 40-hour CE program designed for pharmacists and pharmacy technicians desiring to become certified in sterile compounding. It includes didactic, and live over-video skills validation by experienced and certified pharmacist instructors.
