

## **Sammy D. Eghbalieh, MD, FACS, RPVI, a Vascular Surgeon with Southern California Multi-Specialty Center**

Get to know Vascular Surgeon Dr. Sammy D. Eghbalieh, who serves patients throughout the State of California.

New York City, Oct 8, 2020 ([Issuewire.com](http://Issuewire.com)) - Approaching healing from a whole person perspective,

Dr. Eghbalieh is an accomplished vascular surgeon with Southern California Multi-Specialty Center. He sees patients at the offices in Porter Ranch, Sherman Oaks, and Valencia, California.

Southern California Multispecialty Center is a renowned surgical practice located in the heart of the San Fernando Valley that offers specialty services in the area of general surgery, vascular surgery, and interventional radiology. “We are three brothers who dreamed of creating a surgical practice where providers, patients, and their families would come together to alleviate suffering. This practice is built on family values that honor human connection as an important aid in healing. We take the time to explain complex surgical procedures in a way that is understandable so that you are empowered to make the best decision for your future. It is our privilege to work together to help you live your best life.”

Having quickly distinguished himself as a leading limb-salvage physician in the San Fernando Valley, Dr. Eghbalieh is affiliated with Providence Holy Cross Medical Center, Henry Mayo Newhall Memorial Hospital, Valley Presbyterian Hospital, and Sherman Oaks Hospital. A member of several medical staff committees, he is a representative for the Southern California Providence Vascular Focus Group and serves as President of the Southern California Vascular Group.

Holding a medical degree from David Geffen School of Medicine at UCLA, Dr. Eghbalieh served his internship and residency at St. Mary’s Hospital. There, he conducted award-winning academic research for publication. He then went on to complete his fellowship in vascular, endovascular, and minimally invasive vascular surgery with the Vascular Group at Albany Medical Center, specializing in complex vascular and limb-salvaging procedures.

With a desire to optimize health and well-being, the doctor is board-certified in vascular surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

To progress in his field, Dr. Eghbalieh remains a member of several professional organizations, including the Society for Vascular Surgery and the Society for Clinical Vascular Surgery. He is a Fellow of the American College of Surgeons (FACS) and a Registered Physician in Vascular Interpretation (RPVI).

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses, treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
