

## Bradley J. Aymen, DO, a Neurologist with Michigan Institute for Neurological Disorders

Get to know Neurologist Dr. Bradley J. Aymen, who serves patients in Farmington Hills, Michigan.

**New York City, Dec 8, 2020 ([IssueWire.com](https://www.IssueWire.com))** - As a practicing neurologist, Dr. Aymen surgically treats disorders of the nervous system, which comprises the brain, spinal cord, and nerves. His specialties include epilepsy, headache medicine, memory and cognitive disorders, movement disorders, and vascular neurology.

In his official capacity, he works at the Michigan Institute for Neurological Disorders (MIND) in Farmington Hills. It is the area's leading provider of care for the full range of injuries and disorders of the brain, spine and nervous system. With state-of-the-art, technology and cutting-edge resources on site, MIND is a one-stop shop for the diagnosis, treatment, and management of adult neurological disorders. It provides individualized care to help improve symptoms as well as to assist with emotional and lifestyle needs.

Graduating with his Doctor of Osteopathic Medicine degree from the Michigan State University College of Osteopathic Medicine in 2008, Dr. Aymen decided to further his education with postgraduate training. He completed his internship and residency in neurology at Ascension Macomb-Oakland Hospital in Madison Heights.

Thereafter, he attained board certification in neurology through the American Osteopathic Board of Neurology and Psychiatry, an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in disorders of the nervous system (neurologists) and to qualified Doctors of Osteopathic Medicine who specialize in the diagnosis and treatment of mental disorders (psychiatrists).

In affiliation with Beaumont Health, Dr. Aymen holds privileges at Beaumont Hospital, Farmington Hills & Beaumont Hospital, Royal Oak.

Neurology is a branch of medicine dealing with disorders of the nervous system. Neurologists are licensed medical specialists who diagnose and treat disorders that affect the brain, spinal cord, nerves, and muscles of patients. They examine a patient's mental and physical status, conduct medical tests and scans, and evaluate the results to diagnose and treat the patient.
