**London, Jan 1, 2021** ([Issuewire.com](https://www.issuewire.com)) - [E Com Security Solutions](#) certifies IBIS Global SAAS, a leading global technology company in the ground-breaking Marketing Intelligence Platform with the [SOC 2 Type 2](#) audit. As marketers turn to more SaaS-based products, the IBIS Global SAAS Platform exceeds the industry with best practices.

E Com Security Solutions SOC 2 reports trusted by thousands of enterprises across 20 industries. E Com Security Solutions provide an in-depth assessment of security and help companies to build trust and gain confidence.

SOC 2 Type 2 is an intense, 3rd party assessment of an organization's inward control approaches and practices throughout a set timeframe. The autonomous' review will likely confirm best practices around the corporate framework, internal processes, data management, information protection, and security. To be in a competitive market, SOC 2 is one of the more common compliance requirements that tech companies should meet. The Trust Services Criteria was the basis for it and SOC 2 allows more flexibility to the company on how to meet the criteria.

E Com Security Solutions with SOC 2 Type 2 audit provides assurance on Security, Privacy, Availability, Processing Integrity, and Confidentiality to IBIS Global SAAS internal controls to meet the Trust Services Principles and Criteria. E Com Security Solutions confirms that it has robust controls in place to provide safe and secure communication based on the cloud.

E Com Security Solutions provide SOC 2 reports that are critical to enhancing trust and transparency. When you store large amounts of sensitive data in the cloud, you need excellent controls in terms of security, privacy, and compliance, and you need to report its effectiveness regularly and E Com Security Solutions provide the best solutions to it.

E Com Security Solutions provide trust and certainty to clients, stakeholders, and investors that data and innovation empowered business resources are safeguarded.
