This internationally popular music group has come up with their latest fascinating songs, so rare in the present scenario that the whole world is waiting for them with bated breath. Their haunted voices will guide you to seek the true meaning of life and loss. Their multi-layered music production is all about timeless emotions that affect one's decision-making mechanism subconsciously. Bringing an unprecedented aesthetic of profound lyricism and soul-saturated melodies in the trend with '**Freaking Out**', they can be considered to be the pioneers of a new musical dimension.

Putting the vibe of Manchester musical leads above anything, the UK-based music group **All The Beautiful Skies** signals the birth of a new era for upcoming musicians. The dark and ambiguous approach in alternative musicscape is a new wave that starts with the two band members. The band was born in 2018 when two discontent souls with immense artistic potential came across. Suzie and Craig are the masterminds of the iconic brainchild that has been producing ecstatic rock music for the last two years. Suzie used to be a Soundcloud star and Craig used to be the heart of many Manchester-based indie rock bands.

Their concept of making unconventional songs with the supreme amalgam of traditional lilts and dark alternative rock hooks is making sense in 2020. **'Take Me To The Bottom'** is set to hit the scene by storm. It is the inspiring story of Craig who struggled to make a spot in the music industry for a while. Suzie's unparalleled hooks with the icy riffs will give you goosebumps.
