- **With large logistics companies, each customer is merely a drop in the bucket towards the overall gross revenue and these companies lack any sort of customer relationship. White City Logistics strives to maintain healthy customer relationships with each customer and works to provide 100% satisfaction one truckload at a time.**

White City Logistics would love to have you as part of our growing customer family. We take priority in offering on-time deliveries and communication and always strive for 100% customer satisfaction.

We as a company always try to be better than we were yesterday. This is why our president Mr. Nash Zivkovic with his years of trucking and logistics experience is currently working on creating a new in-house custom-made truck dispatching software. This trucking TMS will be ready for testing in a few short months. When this software has been thoroughly tested and has shown positive and efficient results it will be one slick solution and incredibly helpful tool for us, we will be able to provide better service to all our customers.

2021 marks the 10-year anniversary of White City Logistics. We started our journey from humble beginnings with expediting services using cargo vans and sprinters. Through hard work and sheer determination, we have expanded to become what we are today and continue to grow with semi-trucks. We will strive to provide our customers with exceptional service and deliveries for many years to come.
