

## LOVE BLOOMS on Valentine's Day!

The Gates to the Loving Garden are now open!

### United States Minor Outlying Islands, United States Minor Outlying I, Feb 14, 2021

[Issuewire.com](http://www.Issuewire.com) - The seed of a Love Legacy idea planted almost 10 years ago to help others, all in the name of love, finally comes to life. Following the turbulent and painful 2020, the vision to spread the powerful message of love is the beginning of new hope and healing. What better than the day of love, Valentine's Day, to open the gates of <http://www.thelovinggarden.com/> - a charity for all. Most recently TLG has added elements specific to the loss of loved ones from Covid-19.

Anyone who has lost a loved one(s) can plant a flower seed in the worldwide virtual garden to honor them, for any donation amount. Or just plant a flower seed of love at no cost in these challenging times and anchor love in their own lives. Donations to plant a flower seed of love will 'bloom' to help and support 'Flowers of Love Recipients' in the numerous sectors listed on the website.

Ms. Freed calls this process the Cycle of Love where "Our Love Blooms On...".

"I have walked, crawled and fallen many times on the road of deep, painful storylines all of us face at one time or another in our lifetimes." says [Lori Freed], Founder, The Loving Garden Inc. who is an End of Life guide and hospice volunteer. "The shattered heart moments of grief from losing so many including my son, mother (from Covid-19), father, grandparents, dear friends and yes, even myself at times...there must be more purpose to the pain.

The purpose I had come to know was that I forgot the power of Love that I lost sight of so many times along the way. The true calling in my life that kept calling me back and the pain of 2020 also affirmed something stronger than the pain; Love- and I returned to the loving legacy I left behind years before. My tears of grief became a greater purpose and power and they help build The Loving Garden for all in honor of Love. The very love we feel we lost now lives on, or 'blooms on' as I call it...".

The Loving Garden is a charitable website first and foremost, however, it is also a portal of love with offerings extended to site visitors such as support resources, positive affirmations, your own personal garden page, community connection forums, and much more blooming continuously. All portal of love offerings is free for anybody to use any time they need.

Please visit <http://www.thelovinggarden.com/> and honor those you love while helping others in need of love and assistance. Including yourself.
