

## Ronald Dean Pyle, DO, FAAP, a Neonatologist with Deaconess Health System & The Women's Hospital

Get to know Neonatologist Dr. Ronald Dean Pyle, who serves patients in Newburgh, Indiana.

**New York, New York City, Feb 18, 2021 ([IssueWire.com](https://www.issuewire.com))** - Dr. Pyle is a board-certified and fellowship-trained neonatologist. He serves as the Chair of the Department of Pediatrics for Deaconess Health System and as the Medical Director of Neonatology, Lactation, and Neonatal Transport at The Women's Hospital in Newburgh, Indiana.

A firm believer that communication is key, Dr. Pyle's philosophy is family-centered care. He really believes that families need to be a part of the decision-making process. He and his staff talk to them from day 0 and then on a daily basis. They are always on the same page so that when they make

decisions, they make decisions together.

A jointly owned facility between Deaconess Hospital and Evansville Holdings I, LLC, The Women's Hospital is dedicated to the specific health care needs of women and babies. The team of highly-skilled physicians and staff members is committed to providing compassionate, high-quality care in a family-centered environment. They use a family-centered care model that allows patients and families to define their "family" and work together with the staff to decide how they will participate in care and decision-making.

Following the completion of his Doctor of Osteopathic Medicine by the Chicago College of Osteopathic Medicine in 1997, Dr. Pyle went on to further his training. He performed his residency in pediatrics at Sparrow Hospital in 2000, and his fellowship in neonatal-perinatal medicine at Rainbow Babies And Children's Hospital in 2003.

A Fellow of the American Academy of Pediatrics (FAAP), the doctor is board-certified in pediatrics and neonatal-perinatal medicine and pediatrics by the American Osteopathic Board of Pediatrics (AOBP). The AOBP is an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in the diagnosis and treatment of medical diseases in infants, children, and adolescents.

Holding an academic position, Dr. Pyle is an Assistant Professor of Clinical Pediatrics at the Indiana University School of Medicine.

Neonatology is a subspecialty of pediatrics that consists of the medical care of newborn infants, especially the ill, or premature newborns. It is a hospital-based specialty and is practiced in neonatal intensive care units. Neonatologists generally diagnose and treat newborns with conditions such as breathing disorders, infections, and birth defects, as well as coordinating care and medically managing newborns born prematurely, critically ill, or in need of surgery.
