

UAE-Based Milanion Ramp up Unmanned Systems Manufacturing Capability with Move to Tawazun Industrial Park (TIP)

United Arab Emirates, Dubai, Feb 18, 2021 ([IssueWire.com](https://www.issuewire.com)) - UAE-Based Milanion Ramp up Development and Manufacturing Capability with Move to Tawazun Industrial Park (TIP), the Centre for Strategic Defence Manufacturing in Abu Dhabi.

In a tumultuous year that saw businesses and economies around the globe falter, Milanion has weathered the storm from small beginnings to become synonymous with the production of world-class autonomous unmanned systems for land and sea platforms. Leading with the AGEMA UGV range, with at least five vehicles being showcased at IDEX 2021, the strategic relocation to Tawazun Industrial Park will allow Milanion to streamline and increase manufacturing capability, whilst focusing on R&D to develop new innovative autonomous technologies.

Milanion CEO, Davinder Dogra said, “We are proud to announce our move to the secure Tawazun Industrial Park in Abu Dhabi, the premier hub for Defence sector manufacturing in the region”. He added, “This achievement will allow us to more than double our production capacity in line with local and international interest in our unmanned technologies and platforms”.

A part of Tawazun Economic Council, TIP hosts a number of Global Defence Manufacturing enterprises. Milanion’s facility will serve as a hub for the development and manufacture of a range of defence and

security-related products with an initial focus on unmanned ground vehicles (UGV's).

“TIP’s vision is to be the leading industrial zone in the strategic sectors that are our focus. Our target industries are market leaders with an objective to build skills, expertise, products and systems within the UAE. Milanion compliments our criteria perfectly and their autonomous unmanned vehicles are a welcome addition to the prestigious list of manufacturing abilities and products in TIP. We look forward to enabling and nurturing Milanion’s growth.” Commented, Eng. Faiz Al Nahdi, CEO of TIP.

About Milanion

Milanion is a leader in the design, development and manufacture of autonomous, unmanned technologies and platforms for land and marine vessels. Working in consultation with, and feedback from end-users in the Defence, Civil Defence, Security and Fire and Rescue sectors, we deliver UGV and USV capability solutions that put personnel out of harm’s way and exceed the high standards set for the planning and execution of mission-critical applications. Milanion can respond, execute, and adjust at speed; to develop and deliver robust world-class unmanned capability solutions, within budget and on time to meet changing client needs.

About TIP

TIP plays host to strategic industrial sectors with a focus on defence manufacturing. Tactically located in Ajban-Abu Dhabi, the Industrial park has dedicated infrastructure put in place to support this crucial sector with upstream and downstream clusters around it.

The Park is already home to several leading local and international companies, specializing in defence, advanced precision manufacturing, system integration, aerospace components, basic metal, and oil & gas service.
