

Aviana Global Technologies, Inc. Named a Red Hat Ready Partner

Unearth the true value of your data.

California, Yorba Linda, Mar 21, 2021 (Issuewire.com) - Aviana Global Technologies, Inc., one of the premier artificial intelligence and machine learning consulting companies in the industry, announced that it has been named a Red Hat Ready Partner in North America. As part of Red Hat's partner ecosystem, Aviana acts as a reseller of Red Hat technologies and offers expert services to design, plan and deploy open-source solutions, including AI/ML and cloud solutions on Red Hat OpenShift.

Red Hat Ready Partners can support the successful implementation of Red Hat's open hybrid cloud products, including Red Hat OpenShift, the industry's leading enterprise Kubernetes platform. Aviana provides technical expertise and working practices to deliver a high degree of customer satisfaction across a range of deployment scenarios and projects. Through comprehensive sales and technical accreditation, marketing and sales tools, and technical support, Red Hat Ready Partners are enabled to deliver innovative open-source technology and valuable expertise.

Aviana Global Technologies is an advanced analytics company with deep expertise in artificial intelligence, machine learning and cloud-based deployments. Founded in 2000, the Los Angeles-based company works with leading clients like Boeing, DaVita, Kaiser Permanente, Kawasaki, MGM Resorts, and iHeartMedia.

Red Hat Ready Partner status recognizes partners that demonstrate that they can deliver a scalable, supported and consistent environment designed for enterprise software deployments. The program provides customers and partners with the assurance that Red Hat product experts have validated a given solution so that implementations can begin with a solid foundation.

"As a company specializing in data and analytics over the last 20 years, our vision has always been to empower business leaders," says Avijit Datta, CEO of Aviana Global Technologies. "We've simplified the complexity of the most advanced technology in AI and machine learning, enabling organizations to utilize it independent of technical support, equipping clients with the ability to break through seemingly impossible barriers to elevate their effectiveness."

"We are pleased to work with Aviana as a Red Hat Ready Partner in our growing partner ecosystem," said Ernest Jones, Vice President, North America Commercial Partners & Alliances, Red Hat. "Red Hat is committed to offering customers and developers broad choice in the cloud, and the key to that vision is building a partner ecosystem that can enable users to build and deploy innovative applications in open hybrid cloud environments. We look forward to continued collaboration with Aviana as they expand their offerings with Red Hat."
