

## Banka BioLoo Limited gets R&D Recognition and Certification from DSIR, GOI

Science • Sustainability • Social Impact

**Telangana, Hyderabad, Mar 11, 2021 ([Issuewire.com](http://Issuewire.com))** - [Banka BioLoo](#) is a research-driven, publicly listed (NSE: BANKA) enterprise, a pioneer in Water, Sanitation, and Hygiene (WaSH) infrastructure, announced that its Research and Development (R&D) facility has been recognized and certified by the Govt. of India's Dept. of Scientific & Industrial Research (DSIR), the sole authority for granting R&D recognition and certification to companies in India on 8/03/2021

Commenting on the recognition by DSIR, Ms. Namita Banka, Founder, MD. Banka BioLoo said, “what a great way to celebrate women's day in our company as we receive the recognition today, we now have more responsibility to create and focus on sustainability of our vision and mission. My dream of contributing to the world of science has come true. Sanitation and water are basic to our survival and future and I shall do whatever to make it a success.

Adding to this CEO & co-founder, Mr. Vishal Murarka said we as a company has been focused on innovation and its applicability on the ground and this recognition re-enforces the fact that we are targeting to solve most sensitive SDG 6 of sustainability Goals in the right way.

With DSIR recognition and certification, the company joins the elite club of 2000 companies in India who have this prestigious recognition and certification. [Banka BioLoo](#) is an acknowledged industry leader in providing sanitation infrastructure and turnkey, human waste management solutions and services, involving innovative and simple bio-digester technology patented by Defence Research and Development Organization (DRDO), the R&D arm of the Indian Ministry of Defence along with other

allied products & services.
