New York, New York City, Mar 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - Viewing oral health as a paramount concern, Dr. Manning is a skilled dentist who sees patients at his private practice - Dennis E. Manning, DDS, LTD - in Libertyville, Illinois. He makes it simple to achieve the healthiest, most beautiful smile, offering services such as general dentistry, teeth whitening, dental implants, crowns, fillings, or preventive care.

With health and comfort as top priorities, he and his staff are committed to individual attention and strive to provide personalized oral health care tailored for each patient's unique dental needs and goals. They work hard to create the ultimate stress-free and comfortable dental experience and will do what it takes to help every patient understand their symptoms and treatment options in a relaxed office setting.

While in dental school at Loyola University Chicago, Dr. Manning joined the US Navy Reserve and served on active duty in Taiwan during the Vietnam War. He was awarded the Meritorious Service

Medal for his service.

Throughout his extensive career, he has held leadership posts in local, state, and national dental organizations. He continues to see patients at his private practice and has been doing so for the last three decades.

From regular cleanings and exams to advanced restorative treatments, all routine dental needs can be met at his office. Dr. Manning wants to make sure the teeth stay healthy, function well, and look great!

Realizing a shared vision of uncompromising excellence in dentistry, he is committed to listening to those he is privileged to serve; earning the trust and respect of patients, profession, and community; exceeding patients' expectations; ensuring a creative, challenging, and compassionate professional environment; and striving for continuous improvement at all levels.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.
