

## Shaukeen provides convenience of having 24/7 paan with Vendekin powered smart vending machine

**Maharashtra, Pune, Mar 31, 2021 ([Issuewire.com](https://www.issuewire.com))** - Shaukeen, The Complete Paan Shop has set up the first of its kind, Automatic Paan Dispensing Machine in Pune, Maharashtra.

Mr. Sharad More, Founder of Shaukeen, wanted to give consumers an experience that no one has had before, to cater to the urge of having paan 24x7 with utmost safety as the vending machine is made absolutely contactless by keeping safety against covid in mind. Hence he came up with the idea of setting up a vending machine.

Vendekin understood Mr. Sharad's vision and with its patented technology of contactless vending, they provided Shaukeen with a first of its kind, Paan Vending machine. It's a perfect example of technology meeting traditions, paan lovers across are looking forward to this new experience. You get the luxury to have any paan of your choice round the clock, at your fingertips.

Alongside, Vendekin wanted to enhance the user experience by providing the same app-like experience, without the need to download an app. Therefore, Vendekin launched its first ever web app interface. The web app will be available for all Vendekin enabled vending machines.

Users just have to scan the QR code by any QR code scanner, which will launch the web app in your browser, and the rest remains the same; SELECT > PAY > COLLECT.

Corporator Mr. Deepak Pote, Corporator Mrs. Madhuri Sahasrabuddhe, and Mrs. Manjushree Khardekar and many other dignitaries graced the inauguration of the new paan dispensing machine at Nalstop, Pune on 15th March 2021.

Brands from different sectors like medicine, sweets, snacks, beverages, hygiene, frozen food, tea and coffee are using Vendekin's digital VCommerce platform to manage their vending machines and provide 24x7 convenience to their customers. Vendekin's Vcommerce platform also enables new micro-entrepreneurs to seamlessly take up a vending business without any prior experience in the vending industry.

### **About Vendekin:**

Vendekin Technologies, since 2016, pioneers the digitisation and democratisation of vending with its patented disruptive technology for unmanned automated vending machines, micro-markets and self-service kiosks.

Vendekin is a digital aggregator platform with a patented technology that enables a smart vending ecosystem with a touch-free approach powered by a mobile-first interface. The solution provides higher sales, increased margins for operators using AI/ML driven backend and deep consumer insights to FMCG brands.

Vendekin offers a wide range of intelligent vending machines disrupting the unattended retail sector and also offers touchless vending solutions to transform existing equipment into unmanned digital retail micro stores.
