

## Wild Triumph Unveils Exclusive Women Only Motorcycle Tour To Celebrate International Women's Day

On the occasion of International Women's Day, celebrated worldwide on the 8th of March, Wild Triumph announced its exclusive, women's only motorcycle tour.

**New Jersey, East Brunswick, Mar 22, 2021 ([IssueWire.com](https://www.issuewire.com))** - On the occasion of International Women's Day, celebrated worldwide on the 8th of March, Wild Triumph announced its exclusive, women's only motorcycle tour. Wild Triumph has forged built a brand for itself as a motorcycle touring agency that is enthusiastic about adrenaline, luxury & ramble.

Founded by two wanderlust souls with a penchant for traveling off the beaten path, Wild Triumph is a proud startup. Dedicated to adventure motorcycle tours of Asia, the team of over 100+ experts and specialists share a common vision of transforming the global traveling experience. Their latest tour is an exclusive women's only motorcycle expedition of the Himalayas. The journey will embark upon the offbeat Himalayan routes through India and Nepal.

The uniqueness of this exclusive [Himalayan motorcycle tour](#) has its foundation in empowerment. The entire team will be guided by a female group leader and supported by a female mechanic and a female

backup vehicle operator. The group leader will be leading the way and keeping track of the team without interfering with the riders' pace. The female mechanic and female backup vehicle operator will be right behind in the backup vehicle with all the luggage and essentials. From the airport to the end of the destination, the goal is to provide a wonderful experience dipped in comfort & luxury.

Customized packages coupled with unanticipated thrills make Wild Triumph's tours the perfect getaway for the daring adventurer. The guided motorcycle tours are designed to offer the best riding experience without compromising on security.

Wild Triumph's globetrotting philosophy is guided by three simple words - Travel, Discover, Live. The team believes that memories gained from traveling are those that last an eternity, undefiled by the tests of time. They are committed to bringing together adventure-seeking people and guide them through altering journeys that tread on innovation.

The company designs itineraries for every riding style: A 12-day laid-back luxurious [bike tour of Rajasthan](#) with an opportunity to explore opulent palaces and magnificent forts is a completely contrasting experience when compared to the Himalayan adventure. Similarly, a composed [bike trip through Southern India](#) commonly known as the "Spice Route" or the 13-day cultural tour of Rishikesh, Varanasi & New Delhi offers an exhilarating experience to its riders!

For the most undaunted escapade, the company has introduced a [14-day breathtaking tour](#) of the most sparsely populated land on the planet; Mongolia. The contrast created by the deserts, steppes, and panoramic sceneries has made this a treasured destination for many off-road admirers. Although there are some barriers when it comes to communication with the locals, yet the riders are welcomed with warm smiles in this country. With an option to pick a Royal Enfield or a KTM, this tour comes with a promise of mind-blowing adventure and fun.
