Chhattisgarh, Bilaspur, Apr 21, 2021 (Issuewire.com) - "Authors tree publishing company is best/most affordable publishing company/house in India, they are providing publishing services on very low prices compare to other publications." (eBook Publishing - Rs. 2550/-, Paperback + eBook Publishing - Rs. 5500/-).

Authors Tree Publishing formed by the Authors tree publication group and the founder and CEO of the company is Mr. [Mithlesh Kaushik](#), an end-to-end provider of services to the publishing industry. We offer a multitude of services to help Indian authors and publishers experience success in the global market. Authors Tree Publishing is a rapidly growing self-publishing company in India. Working on Print on Demand Methodology, Authors Tree provides you 100% profits on each book sale. We accept fiction, non-fiction, art, science, technology, academic, poetry, and regional books. With the promise of being the best book publisher in India, we also keep our promise of maintaining stocks and the availability of the book.

The book will always be available on platforms like Amazon, Flipkart, Goodreads, Snapdeal, Kindle, Google Books, Google Playstore, etc. Through self-publishing with Authors Tree Publishing, your book will also be distributed internationally directly through the biggest platform like amazon.com.

Books published through print on demand platform of Authors Tree Publishing never go out of print. Print on Demand Self-Publishing is a new model for book publishing; Authors Tree Publishing provides you the complete benefit of this trend for a lifetime

Self-publishing is the publication of media by its author without the involvement of an established publisher. The term usually refers to written media, such as books and magazines, either as an ebook or as a physical copy using POD (print on demand) technology. It may also apply to albums, pamphlets, brochures, video content, and zines. In the traditional publishing model, the publisher bears all the costs and risks of publication but retains most of the profit if the book is successful. In self-publishing, the author bears all the costs and risks but earns a higher share of the profit per sale. The \$1 billion markets of self-publishing have transformed in the past two decades with new technologies providing increasing alternatives to traditional publishing. Self-publishing is increasingly becoming the first choice for writers. Most self-published books sell very few copies. Those which sell large numbers are newsworthy because they are so rare. The quality of self-published works varies considerably because there are no barriers to publication and no quality control.
