

Big Head Bandz provides unmatched inspiration on FAITH

California, Los Angeles, Apr 3, 2021 ([Issuewire.com](https://www.issuewire.com)) -

The definition of 'FAITH' is believing in something without proof. In 2020, 'FAITH' was in high demand amongst Black people. The brutal killings of Ahmaud Arbery and George Floyd shook the soul of America. The police killing of George Floyd triggered the most significant civil rights protest in human history. Seeing a city-paid police officer kneel on the neck of a human being and watching his life die out in real-time engaged America and forced the conversation of systemic racism.

The United States of America is the wealthiest country in the world, and people were starving for months. Millions of people were praying for God to send food, flooding food banks for days searching for an essential meal. Churches became food distribution centers for all people, it's funny how FAITH connects people to a purpose regardless of their ethnicity. The humanity of people illuminated the desperation for change and survival.

Major Recording Artist Big Head Bandz was born with a dual soul. His father instilled within him the power of GOD and the value of 'FAITH.' Big Head Bandz maintains a unique perspective on life, living on both sides of GOD and Satan at different points in life. Struggle creates desperation and short-term planning.
