

# Donny Lewis releases NFT with unlockable content of complete Television show on Open Sea

Writer, Actor, Model, Philosopher now NFT screenplay sales innovator Donny Lewis on Open Sea

OASIS BOUND  
Pilot  
Episode - 1

Written by

Donny Lewis

**United Arab Emirates, Dubai, Apr 23, 2021 ([IssueWire.com](https://www.issuewire.com))** - Entertainment News, Television, Screenwriters, Streaming platforms, and NFT's may not seem like they have much in common but Donny Lewis is a writer that is making a case that they do all belong in the same sentence.

NFT's have recently been making the rounds as the next big thing in visual art. Donny asks, "What if it worked for the art of the written word as well?"

NFT's may have yet another use aside from that of visual art sales. The NFT file that Donny Lewis minted through Open Sea on 25.03.2021 is only on the title page of the pilot episode of the made of streaming platform show, "[Oasis Bound](#)". The purchase price listed on 23.04.2021 the [Open Sea Platform](#) is 88 ethereum coins

The key to the value is not only as a collectible but ***in the special after purchase unlock***. That is where you are granted rights minus a small royalty to produce the full show. It gives you access to all character bibles, outlines, story arcs as well as two completed scripts and the full series overview.

Screenwriting is a hard business to break into. Donny was initially given the opportunity to create and develop "Oasis Bound" for a once-prominent Dubai-based film production studio. When the studio fell on hard times and closed it left Donny with 2 years of unpaid work tied up in a beautiful project.

Never one to give up Donny Lewis continued to speak with other possible production companies. There was some light once again shining on the project and it appeared that it would finally be made into a reality when the Pandemic hit halting all productions and talks.

Again never one to give up, Donny Lewis then had the idea that it could be made available as an NFT. may never see the light of a screen.

Part of the difficulty in submitting work to other production studios is confidentiality agreements and access to networks. NFT's can act much as copyright does and the platform of Open Sea is the open network marketplace.

If this new idea works selling screenplays could be the next great NFT boom to hit the arts and entertainment world.

Artist is available for an interview on request. [info@donnylewis.com](mailto:info@donnylewis.com)
